

Increase sessions limit

Check status

```
select name, value from v$parameter where name in ('processes', 'sessions', 'transactions');
```

```
-----  
processes  
150  
sessions  
248  
transactions  
272
```

Increase

sqlplus / as sysdba

```
alter system set processes = 1000 scope = spfile;  
alter system set sessions = 1524 scope = spfile;  
alter system set transactions = 1676 scope = spfile;  
shutdown immediate;  
startup;
```
